(a) Risk versus sample size
Outcome OLS, full
Teacher OLS, full
Outcome OLS, compressed
Mixed λ = 0.45, compressed
excess prediction risk
training size n
(b) Mixed supervision, n = 27
Full representation
Compressed, r = 3
excess prediction risk
teacher weight λ
(c) Calibration under rotation
θ = 0°
θ = 30°
θ = 60°
Pr(Y = 1 | P = p)
teacher forecast p
